

Inline Assessments

There are several types of Inline Assessments that you may encounter

1-5 Compare the current vs. supply voltage curve with the one obtained from the IV Analyzer. Are they different? If so, why?

SUBMIT

For **long answer** questions, you can enter your answer in the textboxes provided for each question

1-4 Record your results in the table below:

Table 1-3

Source Voltage (VS)	Total Current I (mA)	Diode Voltage (V)
0.0	<input type="text"/>	<input type="text"/>
0.1	<input type="text"/>	<input type="text"/>
0.2	<input type="text"/>	<input type="text"/>
0.3	<input type="text"/>	<input type="text"/>
0.4	<input type="text"/>	<input type="text"/>
0.5	<input type="text"/>	<input type="text"/>

For **table** questions, you can enter your answer in the textboxes provided for each question

1-6 Do they have the same general shape?

SUBMIT

For **short answer** questions, you can enter your answer in the textboxes provided for each question

Inline Assessments

A screenshot of a question editor interface. At the top, it says "Additional Comments". Below that is a grey bar with "Expand Below" and a downward arrow. The main area is a rich text editor with a toolbar containing options for bold (B), normal, font size (14), font color, bulleted list, numbered list, link, unlink, image, video, and undo. A text input field is below the toolbar. At the bottom left, there is a "Preview" button with a right-pointing arrow, and at the bottom right, there is a blue "SUBMIT" button.

Freeform question allows you to include a combination of text, images, links, and files to your report

A screenshot of a multiple choice question. The question is "1-1 What is a diode?". There are four options, each with an unchecked checkbox:

- A. A semiconducting device that allows current to flow in multiple directions.
- B. A semiconducting device that doesn't allow current to flow in any direction.
- C. A semiconducting device that allows current to flow in one direction but not the other.
- D. A semiconducting device that allows current to flow in opposite directions.

At the bottom left, there is a blue "SUBMIT" button.

For Multiple choice questions, you can select one or more answers by checking the box next to it

Note that each individual question has its **own** submit button. It's also important to note that some questions can be submitted more than once while others cannot, depending on what the content author has chosen.

A screenshot of an upload question interface. It shows a step number "3" followed by the text "Take a screenshot to record your results." Below this is a large dashed rectangular box representing an upload area. In the center of the box is a blue cloud icon with an upward arrow. Below the icon is the text "Drag-and-drop or click to select files to upload." At the bottom right, there is a grey callout box with white text.

Upload questions request that you upload a file to your lab
