Table

Row Before Selected	Row After Selected	Selected Row
Column Before Selected	Column After Selected	Selected Column

5

To select the number of columns and rows you want in the table, select a cell from the table with a **white background** and click the buttons below the table to add/remove a row or column

Enable graphing:

Adding New Items: Inline Assessments

Table Question

***Note** that if you've added content into a cell, the students will not be able to type anything into that cell.

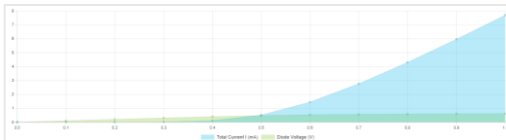

Table

	Advantages	Disadvantages
Simulate the Behavior of a Diode		
Diode Behavior		
Diode Measurements		

Row Before Selected Row After Selected Selected Row
Column Before Selected Column After Selected Selected Column

Enable graphing:

Tables have the ability to produce a corresponding graph as the students enter data. This treats the far left column as the horizontal axis values and the other columns as the corresponding vertical axis values with their own line colours.

Content can be typed directly into any of the cells in the table*
