# Cloning a Course

Navigate to the **Thinkscape Admin Portal** ①

Hover over the course you want to clone and click **Clone** ②

Click **Yes** or **No Clone, but don't unlock** ③

If you select yes, the course will be cloned in a format that will allow you to edit the cloned course, however **this** clone will not receive any corrections or updates because it has been **unlinked** from the master copy of the course.

This option is **not editable**. If this is selected, the clone will automatically receive any corrections or updates that are made to the original course.

Clone Course

Would you like to unlock all labs to be able to edit them?

Once unlocked, you will not receive updates to these copies

Cancel　　　Yes　　No. Clone, but don't unlock
